

About the Novotek Group and Novotek Solutions:

## **Digitalisation, Automation and Analytics for Industry**

Novotek delivers innovative solutions, products and services for a wide range of markets, enabling companies to connect, digitalise and optimise their industrial processes. Success is achieved by delivering, together with key partners, Industrial IT and Automation solutions based on standard products and components.

In November 2022, Astec IT Solutions Ltd was acquired by Novotek, bringing a system integration services capability to the group. Now, being part of the Novotek family, the solutions business can power ahead with new and exciting plans for growth, with opportunity arising from other members of the group and their broad customer base. Headquartered in Sweden, with offices in the UK and much of northern Europe, the group provides a new horizon for the services team with exciting opportunities to work with people in numerous locations and with varied backgrounds, experiences and cultures.

The team is vital to the Novotek group and its success. The Novotek spirit of loyalty and enthusiasm have always been at the foundation of the group's success, with many people staying within the family for a long time. The long-lasting relationships, both internally and with customers, fosters a feeling of trust which is essential for creating a win/win situation.

With the group's turnover exceeding €35M, and a team size of more than 150 people, Novotek is a great place for anyone to test their ambition and grow their career.

Andy Tripp  
Managing Director  
Novotek Solutions UK & Ireland Limited
